Summary

Full Stack Developer with hands-on experience building production web applications using React.js, TypeScript, Node.js, Express.js, and MongoDB. Skilled in REST API integration, reusable component architecture, and writing clean, maintainable, production-focused code, with a proven ability to own features end-to-end across cross-functional teams.

Technical Skills

Languages: JavaScript, TypeScript
Frontend: React.js, HTML5, CSS3, SCSS, Tailwind CSS, Material UI, Bootstrap
Backend: Node.js, Express.js, REST APIs
State & Routing: Redux Toolkit, Context API, React Router
Database: MongoDB, Firebase
Authentication: JWT, Role-Based Access Control (RBAC), OTP Verification
Tools & Platforms :Npm, Git, GitHub, Netlify, Claude Code, GitHub Copilot, Cursor AI, Codex
Core Concepts: Full Stack Development, API Integration, Debugging, Reusable Components, Responsive Design, Code Quality & Maintainability, Cross-functional Collaboration

Experience

Full Stack Developer Jan 2026 - Apr 2026
Indux Technology *Pune, Maharashtra*

- Developed and maintained full-stack CRM (Customer Relationship Management) features using React.js, TypeScript, and Node.js, supporting core business operations.
- Built reusable React components and shared UI modules for CRM functionalities, reducing development effort by approximately 15% and improving maintainability.
- Integrated and optimized REST APIs, implemented lazy loading and memoization for better responsiveness, and used AI-assisted tools for debugging, code review, and refactoring to accelerate delivery.
- Tech Stack: React.js, TypeScript, Node.js, MongoDB, Tailwind CSS, REST APIs, Git/GitHub.

React.js Frontend Developer Jul 2025 – Oct 2025
The Entrepreneurship Network (TEN) *Delhi*

- Collaborated with cross-functional teams on the development and delivery of a business operations platform.
- Built and shipped multiple responsive landing page modules – Hero, Services, Case Studies, Integrations, FAQ, and Contact.
- Developed reusable, responsive React components, accelerating feature implementation by approximately 15% and improving UI consistency across the platform.
- Debugged and optimized production issues using AI-assisted workflows, improving frontend performance and reducing UI issues across devices.
- Tech Stack: React.js, JavaScript, Tailwind CSS, Responsive Design.

Projects

Customer Relationship Management (CRM)

- *Tech Stack: React.js, TypeScript, Node.js, Express.js, MongoDB, JWT*
- Developed and maintained a role-based, multi-tenant full-stack CRM system supporting Super Admin, Admin, Employee, and Customer workflows.
- Implemented secure authentication, including password reset and OTP-based verification, using JWT.
- Built dynamic quotation/invoice PDF generation with customizable templates, Super Admin tenant/account configuration, and Add-to-Cart based lead-generation workflows backed by MongoDB.

EventVerse – Full-Stack Event Booking Platform

- *Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Nodemailer, Tailwind CSS*
- Built a full-stack event booking platform with JWT authentication, email OTP verification, role-based Admin/User access, and responsive React.js UI.
- Implemented 2FA OTP-based ticket booking, secure seat availability with overbooking prevention, and Admin booking verification with Pending/Confirmed/Rejected workflows.

- Developed event management, booking dashboards, admin analytics, and automated booking confirmation emails using Nodemailer and REST APIs.

React.js & Firebase E-Commerce Platform

- *Tech Stack: React.js, Redux, Context API, Firebase, Tailwind CSS*
- Developed a responsive e-commerce web application with product listings, search, cart management, and secure user authentication using Redux, Context API, and Firebase.
- Applied AI-assisted workflows for debugging, testing, and feature implementation.

AI Chatbot

- *Tech Stack: React.js, REST APIs, Gemini API, Tailwind CSS*
- Built an AI-powered chatbot integrating the Gemini API for real-time, context-aware conversational responses with a responsive, state-managed interface.

Education

Graphic Era Hill University Bhimtal
B.Tech – Computer Science & Engineering *2023 – 2027 (Expected)*

Certifications

- Full Stack Developer Certification – Indux Technology
- React JS Developer Certification – The Entrepreneurship Network
- RDBMS PostgreSQL Training Certificate – EduPyramid, Spoken Tutorial Project (IIT Bombay)

Achievements

- Won **Best Frontend Developer Award** in a college hackathon for developing an intuitive and responsive user interface under tight project deadlines.
- Collaborated with a team to build and present a functional project during the hackathon, demonstrating strong problem-solving and frontend development skills.
